

CODE ENFORCEMENT RESIDENTIAL CLEANING GUIDELINES

Contact Code Enforcement at 235-8254 for more information on these
and other City of Casper Ordinances.

Weed Removal:

Weeds, dandelions and tall grass need to be below 8 inches tall. Therefore, it is necessary for residents and property owners to regularly cut the weeds on their property, which includes vacant lots, alleys and sidewalk areas surrounding their property.

Litter Removal:

Any person in control of private property is required to maintain the premise, alley and sidewalk areas free and clear of litter. All trash **must** be bagged and tied shut to prevent litter when garbage cans are emptied or blown over by the wind.

Branches/Yard Waste:

Tree branches and yard waste can be taken to the compost yard located at the Solid Waste Facility (1886 N Station Road) for free. The compost yard is open Monday – Saturday from 9:00 to 4:00. The Sanitation Department, on extra trash days, will remove yard waste that meets the following requirements:

- ✓ Branches must not exceed 5 foot lengths;
- ✓ Branches must be bundled and tied with rope or twine;
- ✓ Branch bundles may not exceed 1 foot in diameter;
- ✓ Grass and leaves must be bagged and cannot exceed 50 pounds in weight.

Residential Oil/Paint:

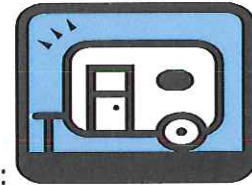

Residential oil, paint, solvents, pesticides, caulk, and other chemicals can be discarded at the Special Waste and Diversion Facility located at the City of Casper Solid Waste Facility (1886 N Station Road). This facility is open Saturdays by appointment only. Call 235-8246, Monday through Friday to arrange an appointment.

Quantities of **residential** used motor oil of 10 gallons or less can be brought to the Balefill anytime Monday – Saturday, 9:00 a.m. to 4:00 p.m. Contact the Sanitation Department at 235-8246 for more information.

Junk Vehicles:

All vehicles have to be operable, and there can only be one unlicensed operable vehicle on your property.

RV'/Trailers/Boats:

Motor homes, boats, campers, trailers, and other recreational vehicles cannot be stored on the street without a permit from the City. These and other vehicles also may not be parked in the alley right-of-way.

White Goods:

Residents can dispose of white goods such as washers, dryers, dishwashers, and water heaters at the City of Casper Solid Waste Facility for no charge. Freon containing appliances, such as refrigerators, freezers and air conditioners may be taken to the Facility or to Wyoming Recycling for a fee. Contact the Sanitation Department 235-8246 for more information or Wyoming Recycling at 237-6615.

Extra Trash Days:

Every month, the Sanitation Department will remove extra items that are too large for the residential dumpsters such as small furniture, bagged trash, yard waste and other items that **do not exceed fifty (50) pounds** in weight. These items need to be placed at least 3 feet from the trash container on your extra trash removal day. Contact the Sanitation Department at 235-8246 for more information. **Note: It is the responsibility of the resident to remove items such as refrigerators, freezers, white goods such as appliances, vehicle parts, concrete, bricks, dirt, sod, large amounts of construction material, etc., from the property, street, or alley. These items will not be removed by the Sanitation Department.**

Tires:

Tires can be recycled at Wyoming Tire, Inc., located at 6925 Cactus Lane for a small fee. Contact 235-0133 for more information. Residents may also dispose of standard-size passenger car or pickup truck tires, rimmed or derimmed, (limit 4) at the Solid Waste Facility for a special fee. Call 235-8246 for details. One way to avoid stock piling tires on your property is to let the tire dealership take them for disposal when new tires are installed on your vehicle. A small fee may apply.

Signs:

Garage sale and other signs cannot be placed in any city or state right-of-way. That includes signs on street signs, light poles, delineator posts, trees and street lights.

Bushes/Trees:

Bushes, trees and shrubs need to be trimmed away from the sidewalk, intersections, and alleys to allow for unobstructed vehicle and pedestrian traffic, and clear view.

Let's all pitch in and do our part to keep Casper a clean and safe place to live.
